**Texas Medicaid 1115 Demonstration Waiver
Region 2 Health Partnership
Qualitative Community Health Assessment
June 2012
Hardin County Full Report**

INTRODUCTION

The Texas Legislature, in its 2011 Session, directed the Texas Health and Human Services Commission (HHSC) to cut costs in the Texas Medicaid program by expanding managed care for eligible participants. The Commission had previously piloted two variations of managed care programs for Medicaid. This experience served as the basis for request of a waiver from the Center for Medicare and Medicaid Services (CMS) of the U.S. Department of Health and Human Services to authorize the legislatively directed change for Texas.

In December 2011, CMS approved the Texas application request, resulting in the Texas Healthcare Transformation and Quality Improvement Program, better known as the 1115 Demonstration Waiver. The Waiver is approved for a five year period, after which it may be renewed if evaluation of the state's refined and expanded program demonstrates that it met its milestone measurements. Two major categories of funded effort are to be carried out in the 1115 Demonstration Waiver. Funds are to be provided to support an *Uncompensated Care Pool* (UC) which will make supplemental payments to providers for direct healthcare services provided to eligible patient participants. The *Delivery System Reform Incentive Pool* (DSRIP) will provide funds supporting projects that improve the care experience, improve population health, and contain costs.

To administer the program, Texas has been divided into 20 regions, with a designated anchor organization serving as convener for regional stakeholders; coordinator for regional planning; and single point of contact for HHSC. The Region 2 Healthcare Partnership consists of 16 counties in East and Southeast coastal Texas. Included are Brazoria, Galveston, Jefferson, Orange, Hardin, Liberty, Polk, San Jacinto, Tyler, Jasper, Newton, Sabine, Shelby, Angelina, Nacogdoches, San Augustine counties. The University of Texas Medical Branch (UTMB) at Galveston was confirmed as the anchor organization for the Region 2 Healthcare Partnership (RHP).

A critical element of the 1115 Demonstration Waiver in its first year of implementation is the completion of a community health assessment. The Region 2 Healthcare Partnership *community health assessment consists of two major components, quantitative and qualitative information.*

The *quantitative community health assessment* prepared by the University of Texas - School of Public Health in Houston and the UTMB Center for the Elimination of Health Disparities, is composed of information gathered from a wide range of existing data sources. That data is presented in a way that helps the reader understand important demographic and socioeconomic characteristics of Region 2. The data also provides evidence of the health status of individuals and communities, including morbidity and mortality from acute and chronic health conditions, as well as cancer incidence. Readers will also see data regarding health services delivery, health resources, and information regarding socio-cultural and environmental effects on individual and community health.

The *qualitative community health assessment*, designed and conducted by the Texas Area Health Education Center (AHEC) East program, AHEC has worked in the 16 counties of Region 2 for 20 years, and has connected with partners and other information resources seeking the ideas, opinions and perspectives of residents of the 16 county service area of Region 2. The qualitative community health assessment identifies what people believe about health issues, health services, and health resources in the community.

QUALITATIVE COMMUNITY HEALTH ASSESSMENT PROCESS

The Texas AHEC East (TAE) initiated the Region 2 Qualitative Community Health Assessment (CHA) in late May 2012. TAE set a goal of contact in each of the sixteen Region 2 counties by at least one of the following three basic methods of information collection designed to engage community residents:

- 1) *Key informant interview* – This structured interview consists of eleven open-ended questions designed to gain insights regarding key informant perspectives on health and well-being; health status of the community; health services and resources; and directions in health and healthcare for their community. Key informants for the sake of this information gathering process were identified from among formal elected, and recognized informal community leadership; health, social services, and education sector leaders; and others referred by participants. A key informant demographics tool was also used to better understand the background of the key informants.
- 2) *Survey in paper and online format, available in English and Spanish* – The survey consists of 27 questions, including demographic information, that seeks respondents' knowledge and understanding of basic health issues; access to health services and other health resources; and the relative importance of a variety of health resources and services. The survey targets those individuals who are likely to be consumers of 1115 Demonstration Waiver services in the Region 2 Healthcare Plan. Paper surveys were placed at clinical sites and social services organizations and agencies, where clients were asked to fill out the survey and drop them in a box for pickup. The online survey web link was widely distributed among AHEC and partner community contacts across the sixteen county region.
- 3) *Focus groups* – A focus group format, including instructions and moderator guide for questions and process was developed. AHEC staff asked community partner organizations to invite participants from among their respective constituencies to gather for participation in information gathering sessions. The focus group information tool included eleven questions that were similar in context to the survey tool, crafted for group discussion rather than individual response. A demographic data-gathering tool was also designed to be able to profile the group.

RESULTS

Key Informant Interviews - 13 Completed

Informant Characteristics:

- 2 male, 11 female (4 county specific, 9 regional informants)
- Average age range 45-54 years
- Ethnicity/Race: 85% White, 7% African American, 7% Hispanic
- 62% of informants hold a bachelors degree or higher

Employment Industry/Insurance Coverage:

- Employer: 54% healthcare, 46% government/public service
- 100% of participating informants reported having insurance
- Sources of insurance coverage: 100% private insurance provided by employer

Interpretation of Health

Most common descriptor:

Physical, mental and spiritual well-being – holistic view of health

Additional interpretations:

- Free of disease
- Feeling good and able to function – can eat, see, hear
- Capable of maintaining job, work, home, etc.
- Access to healthcare you can count on to help maintain help
- Long, quality, productive life
- Balanced diet, exercise and preventative visits

Over 100% of informants did not feel that most of the citizens of Hardin County would meet their interpretation of health

Challenges/Barriers to health

- Restrictive access to affordable / available health resources especially for those with Medicaid, Medicare or those without insurance
- Transportation – what little is available to go to Beaumont, takes all day
- Economic factors – high poverty (lack of funds for healthcare co-pays, medications, deductibles), high uninsured/underinsured population including large self employed population
- Large number of injuries related to jobs requiring physical labor
- No local follow up services for what little preventative screening occurs
- Large variations in pricing for medical services and medications between providers

Informants felt that the system was challenging for both insured and uninsured. Those with insurance had a slight advantage in accessing what resources are available.

Perception of Local Healthcare Services/Infrastructure

Access to health services:

- Access to primary care possible for those with insurance in a timely manner but can be slow to get into local FQHC
- Many do not qualify for help
- Local infrastructure does not really exist, no local specialist

Quality of services:

- Providers overbooked, underpaid and understaffed
- Quality is good if you can get in to be seen

Efficiency/Effectiveness:

- No one works together
- Patients over medicated and sent for tests that are not necessary
- Readmission rate is high

Activities/Programs to improve health (Social Infrastructure and Resources)

- Transportation – increase availability
- Increased access to physical and mental/behavioral health services
- Increase education and community outreach activities – need to go to them
- Increase preventative healthcare and testing resources available locally

- Wellness programs such as community gardens

Trends

Major changes/trends anticipated in current healthcare infrastructure and environment between 2012 and 2016

- Everything depends on Supreme Court Ruling
- Increase electronics – system being forced to move that way
- “A lot of talk and no do”
- Less Medicaid / Medicare providers
- Less and less publically funded healthcare

Major changes/trends in population characteristics and insurance coverage expected by 2016

- Increasing number of disabled and elderly
- Increasing number of uninsured and “working poor”/self employed
- Uncertainty related to how insurance system will work – current system versus proposed system

Survey Information

Respondent Characteristics

- Surveys were collected from 2 sites, with 2 in English and 1 in Spanish.
- 3 female, 0 male.
- Age Range
 - 21 and Under – 0
 - 22 - 34 years old – 0
 - 35 - 44 years old – 2
 - 45 - 54 years old – 0
 - 55 - 64 years old – 0
 - 65 and older - 0
 - Decline to answer -1
- For those reporting ethnicity, white 0; Hispanic 1; Black 0
- Education attainment:
 - Less than 6th grade -1
 - 7th grade - 10th grade -0
 - 11th grade - 0
 - 12th grade - 1
 - Some college - 1
 - Associate Degree -0
 - Bachelor Degree -0
 - Master Degree or higher -0
- Average years in county – 2 for less than seven years, one for over 40 years
- Work
 - Not currently employed - 1
 - Healthcare Services – 1
 - Non-profit -1
- Healthcare provided in Silsbee and Beaumont
- Insured: 2 yes; 1 no
 - By private insurance (2)
 - Children insured by:

- Does not apply – 0
- You - 0
- Medicaid - 2
- Medicare 1
- Private Insurance (including employer plans) – 0
- C.H.I.P. – 0

Interpretations of health

- All considered health to be fair to excellent
- Self-rated knowledge of:
 - local healthcare services - 33% poor; 67% good to excellent
 - County healthcare services - 33% poor; 67% good
- 33% smoke or use tobacco products
- one person reported having cancer
- Being healthy means – not having any illness; living a clean lifestyle
- Based on these concepts of being healthy:
 - 50% believed people in the county are healthy, because people don't take care of themselves.
 - 67% consider themselves healthy because they eat healthy, and do not have any major health issues.
 - 33% consider themselves unhealthy because they are not sure about what to eat to be healthy.

Challenges barriers to better health:

- Personal - Lack of access to places to exercise, Transportation, finances, need to drink more water and less soda, and not drink alcohol, smoke, or take drugs, need to eat healthy
- for those with Medicaid, little, or no health insurance: Lower income and difficult personal finances

Resources

- Seeking health information:
 - RISE, Health Department
- Aware of the following community services and resources:
 - Food Stamps
 - Hardin County HUD
 - Christian Care Services
 - Utility assistance
 - GCHC sliding scale fee structure

In the following tables, darker shading illustrates where votes tended to concentrate.

How to be healthy

Have any of the following things kept you from being able to get what you need to be your healthiest?				
	Never	Rarely	Sometimes	Always
Knowing what services are available	1	0	2	0
Understanding how to be healthier	1	0	2	0
Transportation	3	0	0	0
Access to healthy food	1	2	0	0
Cost of medication	1	2	0	0
Access to smoking cessation	1	0	2	0
Access to fitness resources	1	1	1	0
Lack of knowledge about issues affecting my health	1	1	1	0
Lack of preventative services	3	0	0	0
Difficulty navigating the healthcare system	0	1	0	1
Need help with paperwork / forms	1	0	2	0
Understanding of provider's instructions	1	1	1	0
Cultural or language barriers	0	2	1	0
No after hour or weekend services available	0	1	1	0

Healthcare Access

How would you rate your ability to receive the following types of healthcare?

	Poor	OK	Good	Excellent	Not Available
Local hospital services	0	1	1	0	1
Local emergency room services	0	1	1	0	1
Local physicians / healthcare providers	0	1	2	1	0
Local dental services	0	2	1	0	0
Pharmacy services	0	1	2	0	0
Counseling / mental health services	0	2	0	0	1
Alcohol / drug abuse treatment services	0	2	0	0	1
Public health services	0	2	0	0	1
Health Education	0	2	0	0	1
Preventative health services	0	2	0	0	1
Case management services	0	2	0	0	1

Healthcare Quality

For the healthcare services that you are able to get, how would you rate the quality of the services you receive?

	Poor	OK	Good	Excellent	Not Available
Local hospital services	0	2	0	0	1
Local emergency room services	0	2	0	0	1
Local physicians / healthcare providers	0	1	2	0	0
Local dental services	1	1	1	0	0
Pharmacy services	0	1	2	0	0
Counseling / mental health services	0	1	1	0	1
Alcohol / drug abuse treatment services	0	1	1	0	1
Public health services	0	1	1	0	1
Health Education	0	2	0	0	1
Preventative health services	0	1	1	0	1
Case management services	0	2	0	0	1

Importance of Selected Services

Please look at the following list of services / resources and rate them based on how important you feel they are to making people healthier if there was a way to create these services / resources in the near future.

	Not Important			Somewhat Important				Very Important		
Increase the number of places to get healthcare	0	0	0	0	1	0	0	0	0	2
Increase places to get affordable healthy foods	0	0	0	0	0	0	1	0	0	2
Provide transportation to get to the needed resource or service	0	0	0	0	0	0	1	0	0	2
Someone to help find and get the resources / services you need	0	0	0	0	0	0	1	0	0	2
Increase the number of places to get counseling and mental health resources / services	0	0	0	0	0	0	1	0	0	2
Access to smoking cessation	0	0	0	0	1	0	0	0	1	1
Increased access to fitness resources (eg. walking trails, community exercise classes, parks)	0	0	0	0	0	0	2	0	0	1
Access to weight management resources / services	0	0	0	1	0	0	0	0	0	2
Access to preventative health services (eg. immunizations, mammograms, other health screening)	0	0	0	0	0	2	1	2	1	0
Community based resources / services to help you better understand how to be healthier	0	0	0	0	0	0	1	0	1	1
Community based resources / services to help you better understand conditions like diabetes, COPD, stroke and heart disease	0	0	0	0	0	0	1	0	1	1
Help understanding my medications	0	0	0	1	1	0	0	0	0	1
Access to services / resources after hours and on weekends	0	0	0	0	0	0	1	0	0	2

Focus Groups – No focus groups were conducted in Hardin County in this phase of the CHA.

Key Informant Interview Guide
1115 Waiver Regional Health Partnership
Region 2
Rapid Community Health Assessment

The Texas AHEC East is working in conjunction with UTMB and others in the 1115 Medicaid Waiver Region 2 Regional Health Partnership to look at the health of counties within the service region. The answers you give will be combined with other key informant interviews, online surveys, and additional regional health data to better understand opportunities to make your community and the region healthier.

You are being asked to complete a key informant interview. The process should take approximately 20 minutes to complete and is completely voluntary. The interviewer will ask you a series of questions and record your answers. The information you provide will not be linked to you individually. Your participation or feedback will in no way affect any current or future healthcare services.

During the last legislative session, the Health and Human Services Commission (HHSC) was directed to achieve cost savings by providing Medicaid through a managed care program throughout the state. The 1115 waiver is designed, in part, to promote changes in the health care delivery system that will result in better care for individuals, better population health, and reductions in costs through system improvements. The waiver will be in effect for five years.

To assist the conversion to managed care, Texas has been divided into 16 Regional Healthcare Partnerships (RHPs). Your county is in the proposed RHP Region 2. The RHPs bring participants and stakeholders together to develop health care and community plans for public input and review. Each of the 16 RHPs has one "anchor" facility that serves as an administrative entity and a single point of contact. Your proposed anchor is the University of Texas Medical Branch at Galveston (UTMB).

To compensate the RHP for the delivery of Medicaid related healthcare in your community the waiver provides two pools of federal funds. The Uncompensated Care Pool (UC) covers the costs of care provided to individuals who have no third party coverage for the services provided by hospitals or other providers. The Delivery System Reform Incentive Payments (DSRIP Pool) is designed to reward hospital systems for improving access to care and the health of the Medicaid and uninsured patients they serve. In Texas, a total of \$29 billion is available for both pools for all 5 years of the 1115 waiver program.

You can find additional information about the 1115 Waiver and contact information for the Region 2 RHP leadership team at www.utmb.edu/1115/.

Thank you for agreeing to participate. _____ will be conducting your interview. They can be reached at _____. As discussed, the details for the interview are as follows:

Date: _____

Time: _____

Location: _____

If you have any questions or concerns before the scheduled interview or need to reschedule please contact:

Key Informant Demographics

Key Informant Questions
1115 Waiver Regional Health Partnership
Region 2 Rapid Assessment

1. What does being healthy mean to you?

Based on that description, do you feel most of the people in (insert name) County are healthy?

Why or Why not?

2. Do you feel that whether a person has private insurance, Medicaid, Medicare or no insurance has an effect on their ability to meet your description of being healthy?

Can you explain your answer?

3. For those individuals with Medicaid, no insurance, or high deductible insurance in (insert) county, what do you see as the biggest barriers this population has to being healthier?

4. If you needed to find a specific health related resource (e.g. food, healthcare, housing) in this community and you did not know a where to find it, who would you call to find out if anything was available?

What health resources are you aware of that are currently available to those without private insurance in (insert name) County?

5. What types of health related resources or activities do you think would improve the overall health of the Medicaid, uninsured and under insured population in (insert name) County?

Which of these services or activities do you think would also have a positive effect on the general populations?

Finally, is there anyone that you feel is important for us to include in our interview process?

Thank you for taking the time to answer our questions. Your comments are extremely valuable as we gather information to create a comprehensive community health needs assessment regarding your community.

1115 Waiver Regional Health Partnership
Region 2 Health Assessment
Community Survey

The survey should not take more than 15-20 minutes to complete and participation is **completely voluntary**. **Your feedback will not be linked to you personally and will in no way affect any current or future healthcare services.**

Health and Human Services Commission (HHSC) has been directed to look for ways to save money by providing Medicaid through a managed care program throughout the state. The 1115 waiver is being put in place to promote changes in the health care system that will improve the care people receive, make communities healthier and reduce the cost of healthcare delivery. The waiver will be in effect for the next five years.

The Texas AHEC East is working in conjunction with others in the Regional Health Partnership for Region 2 to look at the health of counties within the service area.

Your feedback is very important to us as we gather information about the health of your community. The answers you give will be combined with other surveys, and then combined with additional regional data to better understand opportunities to make your community and the region healthier.

Tell us about yourself:

Please look at the following list of services / resources and **circle** the number that best shows how important you feel they are to making people healthier if there was a way to create these services / resources in the near future.

1= Not important

5= Somewhat important

10= Very important

Increase the number to places to get healthcare

Access to services / resources after hours and on the weekends

1 2 3 4 5 6 7 8 9 10

1 2 3 4 5 6 7 8 9 10

Increase places to get affordable healthy foods

1 2 3 4 5 6 7 8 9 10

1 2 3 4 5 6 7 8 9 10

Provide transportation to get to the needed resource or service

1 2 3 4 5 6 7 8 9 10

1 2 3 4 5 6 7 8 9 10

Someone to help find and get the resources you need

1 2 3 4 5 6 7 8 9 10

Increase the number of places to get counseling and mental health services

1 2 3 4 5 6 7 8 9 10

Access to smoking cessation resources

1 2 3 4 5 6 7 8 9 10

Increased fitness resources / services (eg. walking trails, community exercise classes, parks)

1 2 3 4 5 6 7 8 9 10

Access to weight management resources / services

1 2 3 4 5 6 7 8 9 10

Access to preventative health services (eg. immunizations, mammograms, screenings)

1 2 3 4 5 6 7 8 9 10

Community based resources that help you better understand how to be healthier

1 2 3 4 5 6 7 8 9 10

Community based resources that help you better understand conditions like diabetes, COPD, stroke, and heart disease

Help understanding my medication

Focus group questions

1. What does being healthy mean to you?
2. Based on your description of being healthy, do you think the people in your county are healthy?
Why or why not
3. What are some of the challenges or barriers you or others may have to being healthy?
4. Do you feel the health challenges are different for those with Medicaid, no insurance or high deductible insurance versus those with private insurance?
If yes, how?
5. Have any of the following things kept you personally from being able to get what you need to be your healthiest?
Put these up on separate laminated cards, provide participants with dot stickers and ask them to put a dot on the ones that apply (allows for people to answer honestly with group-think pressure or embarrassment)

Knowing what services are available
Understanding how to be healthier
Transportation
Access to healthy food
Cost of medication
Access to smoking cessation
Access to fitness resources
Lack of knowledge about issues affecting my health
Lack of preventive health services
Difficulty navigating the healthcare system
Need help with paperwork / forms
Understanding of providers' instructions
Cultural or language barriers
No after hour or weekend services available

6. Tell me about your **ability to get** the following types of healthcare services?

Local hospital services
Local emergency room
Local physicians/healthcare providers

Local Dental services
Pharmacy services
Counseling/mental health services
Alcohol/drug abuse treatment services
Public health
Health education
Preventive health services
Case management services

7. For the healthcare services that you have said you are able to get, how would you describe the **quality** of the services you receive? *You only need to ask about services identified as available in question*

#6

Local hospital services
Local emergency room
Local physicians/healthcare providers
Local Dental services
Pharmacy services
Counseling/mental health services
Alcohol/drug abuse treatment services
Public health
Health education
Preventive health services
Case management services

8. If you needed to find a specific health related resource (e.g. food, healthcare, housing) in this community and you did not know a where to find it, who would you call to find out if anything was available?
9. What health resources (ex. food, housing, healthcare, health education, etc...) are you aware of that are currently available in your community?
Please List:
10. *Put these up on separate laminated cards and hang on the wall or place on a table, provide participants with **13** dot stickers. After reading the intro statement, explain that they will need to place their stickers on the sheets based on how important they feel each item is to making people with Medicaid insurance healthier They can put as many or as few stickers on each card as they like but can only have 13 stickers and must use them all.*

I have placed on each of these cards an idea to help people who have Medicaid as insurance become healthier. We are going to pretend the money fairy is going to give us some funds to make some of these things happen in your community. I need you to help the fairy decide which ideas you think would be the most helpful for the people with Medicaid in your community. I have given each of you 13 stickers. Each sticker counts as 1 vote. You can put as many or as few as you want on each idea but you need to put all your stickers somewhere and

you only get 13 votes. So for instance, if I think health education is the most important thing then I can put all 13 stickers or my votes on the sheet that says “available health education”. Likewise, if I thought five of the ideas are really important, I could divide my votes among the five ideas I support and put nothing on the others. Does anyone have any questions about how this works?

Before we start voting, I am going to read out loud the different ideas.

- Increase the number to places to get healthcare
- Increase places to get affordable healthy foods
- Provide transportation to get to the needed resource or service
- Someone to help find and get the resources you need
- Teach me more about my health issues to help me be healthier
- Increase the number of places to get counseling and mental health services
- Access to smoking cessation resources
- Increased fitness opportunities (eg. Walking trails, community exercise classes, parks)
- Access to weight management resources / services
- Access to preventative health services (eg. Immunizations, mammograms, screenings)
- Community based resources that help you better understand how to be healthier
- Community based resources that help you better understand conditions like diabetes, COPD, stroke, and heart disease
- Help understanding my medication
- Access to services / resources after hours and on the weekends

11. Is there anything else you would like us to know about the health or healthcare resources within your county?
